PROFESSIONAL SUMMARY

Data Analyst with a strong foundation in **SQL**, **Power BI**, and **Advanced Excel**, evidenced by completing job with **Accenture** and **Deloitte**. Proven ability to derive actionable insights from complex datasets, such as identifying a **26% churn risk** and a **60% CTR uplift** through rigorous A/B testing and statistical analysis. Passionate about leveraging data to solve real world business challenges and drive revenue growth.

VIRTUAL EXPERIENCE

Tata Consultancy Services *July 2025*

GenAI Powered Data Analytics

- Analyzed business datasets using Generative AI techniques to enhance data-driven decision-making.
- Leveraged AI-powered tools to summarize datasets and extract analytical insights efficiently.
- Designed a structured framework for integrating GenAI into analytics workflows.

Deloitte *Feb 2025*

Data Analytics

- Analyzed large financial datasets for a banking client to evaluate business performance metrics.
- Conducted data-driven problem analysis to support credit and operational decision-making.
- Created analytical reports and visualizations to communicate insights to stakeholders.

Accenture North America *Feb 2025*

Data Analytics & Visualization

- Cleaned, modeled, and analyzed client data using Excel to identify engagement trends.
- Developed interactive Power BI dashboards to present insights and business opportunities.
- Delivered actionable recommendations based on exploratory and trend analysis.

PERSONAL PROJECTS

A/B Experiment Analysis: AI Search Feature | *SQL, Power BI, Excel* | Project Link

- Evaluated an AI-powered search feature by analyzing an A/B experiment dataset to measure impact on Click-Through Rate (CTR) and session duration.
- Wrote SQL queries to aggregate user clicks and engagement metrics; developed a Power BI dashboard featuring dynamic filters for device type and referral sources.
- Determined a +60.41% CTR uplift in the experiment group with neutral impact on session duration, providing a data-backed recommendation for a full feature rollout.

Customer Churn Analysis – SaaS Insights | *Google Sheets, Looker Studio* | Project Link

- Analyzed a dataset of 7,043 customers to identify churn drivers impacting $139K in recurring revenue.
- Performed feature engineering in Google Sheets to create tenure groups and charge segments, then visualized findings via an interactive Looker Studio dashboard.
- Identified that month-to-month contracts and new customers drove a 26.54% churn rate, leading to recommendations for long-term contract incentives and onboarding improvements.

TECHNICAL SKILLS

BI & Visualization: Power BI (DAX, Dashboards), Tableau, Looker Studio
Data Analysis: Excel (Advanced), SQL (Joins, Aggregates), Data Cleaning, Trend Analysis
Reporting & Metrics: KPI Reporting, Business Metrics, Performance Tracking, Documentation

EDUCATION

Sant Gadge Baba Amravati University Amravati

BE, Electrical (Electronics & Power); CGPA: 6.67 *Dec 2021 - Aug 2024*

Government Polytechnic Amravati

Diploma, Electrical Engineering; CGPA: 6.67 *Aug 2018 – Sep 2021*

CERTIFICATIONS

Google Data Analytics Professional Certificate – Coursera Sep 2025

Basic to Advanced Power BI – Skill Nation Feb 2025
